British Journal of Mathematical and Statistical Psychology

Editor: Pat Lovie (University of Keele)

Editorial Board:

David Bartholomew (London School of Economics)
Chris Leach (Wakefield & Pontefract Community Health NHS Trust)
Harvey Goldstein (University of London)
R. Duncan Luce (University of California, Irvine)
Lawrence Hubert (University of Illinois at Urbana-Champaign)
Marcel Croon (Tilburg University)
Philip Levy (University of Lancaster)
Raphael Gillett (University of Leicester)
Sandy Lovie (University of Liverpool)
Sandy McRae (University of Birmingham)
Christoph Klauer (University of Bonn)
Jacqueline Meulman (Leiden University)
Philip T. Smith (University of Reading)

Book Reviews Editor:

Ranald R. Macdonald (University of Stirling)

Statistical Software Reviews Editor:

Diana Kornbrot (University of Hertfordshire)

Volume 55, 2002 ISSN 0007-1102

Contents of Volume 55

Part 1 May 2002

1 **A goodness of fit test for sparse 2^p contingency tables**
David J. Bartholomew and Shing On Leung

17 **An inhibition-based stochastic countable-time decision model**
Ilya Shmulevich and A. H. G. S. van der Ven

27 **Controlling the rate of Type 1 error over a large set of statistical tests**
H.J. Keselman, Robert Cribbie and Burt Holland

41 **Fitting structural equation models using estimating equations: A model segregation approach**
Ke-Hai Yuan and Wai Chan

63 **Outcomes and sample selection: The case of a homelessness and substance abuse intervention**
Michael R. Sosin

93 **Sampling variability of the success ratio in predictor-based selection**
Wilfried De Corte

109 **Measuring change in controlled longitudinal studies**
John E. Overall and Scott Tonidandel

125 **Cross-validation by downweighting influential cases in structural equation modelling**
Ke-Hai Yuan, Linda L. Marshall and Rebecca Weston

145 **Examining group differences in reliability of multiple-component instruments**
Tenko Raykov

159 **Estimation of the Wing–Kristofferson model for discrete motor responses**
Jarl K. Kampen and Tom A.B. Snijders

169 **Comparing the variances of two independent groups**
Rand R. Wilcox

177 **Influential observations in the estimation of mean vector and covariance matrix**
Wai-Yin Poon and Yat Sun Poon

193 **Book reviews**

197 **Editorial acknowledgement**

Part 2 November 2002

199 **Object relocation task: An exact test of significance with credit for partial knowledge**
Raphael Gillett

213 **Asymptotic standard errors of estimated standard errors in structural equation modelling**
Haruhiko Ogasawara

231 **Identification of influential cells in the analysis of ordinal square tables**
Wai-Yin Poon and Sau-Chun Ng

247 **Estimating the covariance function with functional data**
Sik-Yum Lee, Wenyang Zhang and Xin-Yuan Song

263 **A tandem random walk model of the SAT paradigm: Response times and accumulation of evidence**
Danko Nikolić and Scott D. Gronlund

289 **A mixture model approach to indexing rater agreement**
Christof Schuster

305 **The comparative sensitivity of ordinal multiple regression and least squares regression to departures from interval scaling**
Todd S. Woodward, Michael A. Hunter and Helena Kadlec

317 **High-breakdown estimation of multivariate mean and covariance with missing observations**
Tsung-Chi Cheng and Maria-Pia Victoria-Feser

337 **Techniques for oblique factor rotation of two or more loading matrices to a mixture of simple structure and optimal agreement**
Urbano Lorenzo-Seva, Henk A. L. Kiers and Jos M. F. ten Berge

361 **Skill set analysis in knowledge structures**
Günther Gediga and Ivo Düntsch

385 **Significance-testing the validity of idiographic methods: A little derangement goes a long way**
Chris D. H. Evans, John Hughes and Julia Houston

391 **Statistical software review**
